1. Antiaircraft gun emplacements were observed near the WEISSTENEG Strasse on the southern edge of LUCKENWALDE (N 53/2 70). There were six guns, with about 10-foot barrels. The guns were covered with tarpaulins. Earth bunkers were seen near the guns. More emplacements and earth bunkers were under construction.
2. According to a local resident, the emplacements had been built about four weeks before. Other antiaircraft gun emplacements and searchlight stations were also allegedly seen around LUCKENWALDE.

25X1A

The observed antiaircraft gun emplacements were probably not connected with the air defense of fixed installations. This is assumed from the fact that the training grounds of the AAA division of the 3rd Gds Mecz Army (Cadre), organized this summer, is located south of LUCKENWALDE.
